Plird with your birding group

Being with a group means everyone can take turns birding and PLIRDING. One person can carry the trash bag while other members of the group keep an eye out for litter. Your group can even pool together to buy trash grabbers or other supplies to make plirding easier.

Of course, when someone spots a cool bird, whoever is on trash bag duty at the time can put the bag down and use their binoculars. Just remember to pick it back up and not walk off without it!
